

Standing Alone

Striker

So many times I've tried
It's never been easy
That's how the story goes
And everyone knows
Standing alone
Out in the cold
Standing alone
In the cold

I'm waiting for a change
But it won't come easy
It's out of my control
It always slips away

Standing alone
Out in the cold
Standing alone
In the cold
I'll wait
I'll wait for the changes
I'll wait
I know the future won't be the same

Nothing can stay the same
But it's coming full circle
The visions from the past
Are living today

Standing alone
Out in the cold
Standing alone
In the cold
I'll wait
I'll wait for the changes
I'll wait
I know the future won't be the same

I'll wait
I'll wait for the changes, I'll wait
I know the future won't be the same anymore
No, it won't be the same
No, no, I'll wait for the changes
