

# Able Archer

## Stroke 9

Don't drag me down, don't talk to me  
Don't mess around, don't laugh at me  
Don't watch me fall, don't cry for me  
Don't make me small, don't die for me

Don't watch me drown  
Say a prayer for me  
Don't tell me what  
I could never be

We all just need somebody  
We need somebody  
We need somebody  
We need somebody

Just resurrect, the ghost of me  
Don't apologize, out of sympathy  
I'm here right now, so talk to me  
Let's play around, just laugh with me

Fall down with me  
Get high with me  
We made it here  
[?]

We all just need somebody  
We need somebody  
Need somebody  
We need somebody  
We need somebody  
Need somebody

Somebody, somebody  
We all need somebody  
Somebody, somebody  
We all need somebody  
(We need somebody)  
Somebody, somebody  
We all need somebody  
(We need somebody)  
Somebody, somebody  
We all need somebody  
(We need somebody)  
Somebody, somebody  
We all need somebody  
(We need somebody)  
Somebody, somebody  
We all need somebody

We need somebody  
Need somebody  
We need somebody  
Need somebody  
Somebody
