

# Calafrio

Stroke 9

How many ways did you make somebody happy today?  
And how many times did you help 'em change their mind,  
About the way that things are going in their lives?  
It might be hard, we're just trying to do our part

The shining arc light falls on  
Everything, every day, and every night  
It's shining on  
It's shining on  
It's shining on

It's called calafrio  
We take it with us wherever we go  
Me and my amigos  
Living on calafrio

The cooler we are the better it gets  
We're never too far from all of our friends  
Having a good time out in the sunshine  
Knowing that everything will be alright

The shining arc light falls on  
Everything, every day, and every night  
It's shining on  
It's shining on  
It's shining on

It's called calafrio  
We take it with us wherever we go  
Me and my amigos  
Living on calafrio  
Me and my amigos  
Living on calafrio

It's called calafrio  
We take it with us wherever we go  
Me and my amigos  
Living on calafrio  
Yeah, me and my amigos  
Living on calafrio
