Go Away

Stroke 9

Seven A.M. and the knock on my door
And your smell in my room from the night before
You're right by my side every night every day
You're taking up time and I'm losing my mind
So I say, go away from here
I say, go away

You're driving me mad but I don't want to preach
You'll be out on your own and I'm far out of reach
'Cause while you're away this mouse I will play
I want you away and I'm willing to pay
So I say, go away from here
I say, go away
Go away from here
I say, go away

Yeah you've gotta go right now

Go away from here
I say, go away
Go away from here
I say, go away

Yeah you've gotta go right now
