Great Lengths

Stroke 9

We get there
Every time

Whenever I'm alone
I close my eyes and get to thinkin'
And everything starts to feel right
Whenever we're together
We don't need to say
Anything, no, not at all

We may like it here
But we'll run away again
And be fine on the other side

I will go to lengths that you will never know, and
I will be there every time
I will take every lesson that we learned together, and
Make the most until we cross every line

We get there
Every time

With every passin' day
We do a lot to get little
And find a way to just get by
It might take forever
But we've got that kinda time
I don't need to wonder why

And we always wanna learn
So we take another turn
It goes on, and on, and on, and on, and on, and on
Yeah, we never wanna burn
So we take another turn
It goes on, and on, and on, and on, and on, and on

Yeah, yeah
Yeah, yeah
Yeah, yeah
Yeah, yeah

I will go to lengths that you will never know, and
I will be there every time
I will take every lesson that we learned together, and
Make the most until we cross every line

And we always wanna learn
So we take another turn
It goes on, and on, and on, and on, and on, and on
Yeah, we never wanna burn
So we take another turn
It goes on, and on, and on, and on, and on, and on

We get there
Every time
