

When I'm trying to get through
Then I'm talking to myself
And I don't care what they do
Because nobody else
Could put a name on me

They couldn't put a
They couldn't put a
They couldn't put a name on me

They couldn't put a
They couldn't put a
They couldn't put a
They couldn't put a name on me

Well I'm talking out loud
As I'm looking inside
And I don't care about the crowd
'Cause I've got nothing left to hide
Nothing left to hide

They couldn't put a
They couldn't put a
They couldn't put a name on me

They couldn't put a
They couldn't put a
They couldn't put a
They couldn't put a name on me

They couldn't put a
They couldn't put a
They couldn't put a
They couldn't put a name on me

They couldn't put a
They couldn't put a
They couldn't put a
They couldn't put a name on me

Well I've got nothing left to hide
All you need to do is look
Then you'll finally realize
I'm not living by the book
Now everything that I do
Makes me better than before
And all the times when I'm with you
Make me stronger than before
Stronger than before

They couldn't put a
They couldn't put a
They couldn't put a name on me

They couldn't put a
They couldn't put a
They couldn't put a

They couldn't put a name on me

They couldn't put a

They couldn't put a

They couldn't put a

They couldn't put a name on me

They couldn't put a

They couldn't put a

They couldn't put a

They couldn't put a name on me
