

## Washin' N Wonderin'

Stroke 9

This just in, where to begin  
Grin and bear it, it's bear and grim  
Adoration, titillation  
I'm a victim now  
Because she's figured me out

She lights my candle  
She has a handle on me  
It's goin' well but I'm scared as hell  
That she'll figure me out

She thinks it sacred  
To be naked  
But I don't care  
She's had me there  
You see she's figured me out

And I want to shout  
At the top of my lungs now  
But oh my god  
If she hears me she'll come runnin' in

These are my hands  
These are my faults  
These are my nasty little thoughts  
I wrote em down for you to contemplate  
At a later date

Well the word is out, what's it all about  
Doubtless shady, no shadow of doubt  
In moderation this sensation would be fabulous  
But she's figured me out  
She's in my shower, for an hour  
She's just washin' n wonderin'  
And trying to figure me out

Well, you're out there, just stay out there  
I won't hear but be careful man  
Hey careful man  
And I'm sleeping now  
You'll be creeping round  
Just when I was on to something else  
That's when she figures me out
