At Las[t]

Structures

And if you thought it was over then you
Better think twice. You've been given
Your last chance, now face the fucking
Avalanche. And who the fuck are you to
Say that we're just wasting time? There's
No need to look back as we approach the
Finish line. Can't stand side by side, if you
Can't face the fucking avalanche. We're
Standing on top at last. At last, you'll
Have to face the fucking avalanche.
Standing at the top of the world. At last,
Looking down from the top of the world.
At last. We feel alive.
