

Ace In The Hole

Struggle Jennings

Always takin' the wrong roads
Been misreading the signs
'Cause the map I was given
Was written in lies

I found safety on the sidewalk
As your hand reached for mine
You pulled me out
At just the right time

You were sent here from heaven
To hold my hand through hell
I could stay here forever
You take the pain I've known too well
I pray that this moment lasts longer
Than the heartbreaks I have felt
You're my ace in the hole
For the cards I was dealt

The hands on that old clock
Seem to stop in your arms
The dark disappears
Now my heart's free from harm

They say nothin' lasts forever
But this feeling's a first
We slow dance in my dreams
You're my heaven on earth

You were sent here from heaven
To hold my hand through hell
I could stay here forever
You take the pain I've known too well
I pray that this moment lasts longer
Than the heartbreaks I have felt
You're my ace in the hole
For the cards I was dealt

The light in the tunnel
Was a train movin' fast
As I hold onto you
I let go of my past

The war has been won
For love conquers all
When you lift me up
There's no way I can fall

You were sent here from heaven
To hold my hand through hell
I could stay here forever
You take the pain I've known too well
I pray that this moment lasts longer
Than the heartbreaks I have felt
You're my ace in the hole
For the cards I was dealt
For the cards I was dealt
