

# Falling Forever

Struggle Jennings

Keep on dreamin' but the rain keeps falling  
Green eyes, tattoos, pretty soul, perfect body  
Keep on thinkin' how we could have it all  
Live fast, die young, young gone, love one  
Whole lot of gold, whole lot of diamonds  
Whole lot of dope, whole lot of dollars  
Could never compare to when you lovin' on me darling

Hearts break, flames reach heaven  
I wanna do right but I keep falling, I keep falling

I was drowning in the pain, my soul covered in rust  
Everything that I touched had turned to dust  
So I'm afraid to touch even though I love  
I had a bottle damn, had to open up  
Ain't believe in trust, only money and lust  
And the lucifric grip had tightened my guts  
But if I hold on tight then the deeper it cuts  
And if I let go then I'm gonna lose it all  
Been on the bottom, not afraid to fall  
Outlaw, running, for I learned to crawl  
And they called the law, put my life on pause  
Caught in the jaws of my own mistakes  
To make fine wine gotta crush the grapes  
Had to tear it down to repay the great  
Now the queen's arrived at the castle gates

Keep on dreamin' but the rain keeps falling  
Green eyes, tattoos, pretty make-up, perfect body  
Keep on thinkin' how we could have it all  
Live fast, die young, young gone, love one  
Whole lot of gold, whole lot of diamonds  
Whole lot of dope, whole lot of dollars  
Could never compare to when you lovin' on me darling

Hearts break, flames reach heaven  
I wanna do right but I keep falling, I keep falling  
I keep falling, keep falling...Forever

Keep falling, I keep falling forever  
I keep falling, I keep falling forever  
I keep falling, I keep falling forever  
I keep falling, I keep fallin'

I was lost and lonely with a heart that's broken  
Ever since you found me I was always hopin'  
An angel came down to this place that's hopeless  
Said that she loved me, over my shoulder  
Always had my back she had the emotional eyes  
I was shipwreck under her fallen sky  
Sometimes I can't decide if I even deserve you  
If it's true and I do not, do you know [?]  
For baby like you, you know I'm ready to die  
Every time you are leaving my mind  
You see through this world, you always see through the lies  
Can't unsee it now that I'm searching for the meaning  
She did death and prison to a second vision

You can be my remedy to everythin' that's always been missing  
So I know that I got to find her at the end of [?]  
It will make it worth it just to find a sense of purpose

Keep on dreamin' but the rain keeps falling  
Green eyes, tattoos, pretty make-up, perfect body  
Keep on thinkin' how we could have it all  
Live fast, die young, young gone, love one  
Whole lot of gold, whole lot of diamonds  
All the dope, all the dollars  
Could never compare to when you lovin' on me darling

Hearts break, flames reach heaven  
I wanna do right but I keep falling, I keep falling  
I keep falling, keep falling...Forever

Keep falling, I keep falling forever  
I keep falling, I keep falling forever  
I keep falling, I keep falling forever  
I keep falling, I keep fallin'
