

Friday

Struggle Jennings

Every day is a Friday
Struggle

Yeah it feels so good to be here right now
After all the trouble we've seen
Had a run in with the law, bad friends, lost it all
Barely made it out of the streets
Been in shoot-outs, cops kicked the door in
Handcuffin' me
Yeah it feels so good to be here right now
That I'm finally free

Every day's a Friday
It's all behind me
I can finally breathe
Looking in the rear view
Nothing but a clear view
Didn't think I'd make it here, did you?
Through the ups and down
Goes around, comes around
Better choose carefully
Every day's a Friday
It's all behind me
Now that I'm finally free
I'm finally free

Yeah it feels so good to be here right now
Where I'm supposed to be
I finally made it on top, came up from the bottom
Brought everybody close with me
It's been a hard road, never quit fighting though
I wear these scars with pride
Yeah it feels so good to be here right now
Where they said we'd never would be

Every day's a Friday
It's all behind me
I can finally breathe
Looking in the rear view
Nothing but a clear view
Didn't think I'd make it here, did you?
Through the ups and down
Goes around, comes around
Better choose carefully
Every day's a Friday
It's all behind me
Now that I'm finally free
I'm finally free

Every day's a Friday
It's all behind me
I can finally breathe
Looking in the rear view
Nothing but a clear view
Didn't think I'd make it here, did you?

Every day's a Friday

It's all behind me
I can finally breathe
Looking in the rear view
Nothing but a clear view
Didn't think I'd make it here, did you?
Through the ups and down
Goes around, comes around
Better choose carefully
Every day's a Friday
It's all behind me
Now that I'm finally free
I'm finally free
