

# Hard To Hate

Struggle Jennings

I love them slow sad songs  
Old school guns  
High speed heartbeat racing  
The smell of gasoline  
In her perfume  
Moonlight on her body naked

And everything that I'm done with  
I left behind in the sunset  
Cause every mistake I made  
Brought me here to you

Walking through the rain like a sunny day  
And I'm watching all the years just roll away  
Waiting till the day that I'm old and gray with you  
Tomorrow will be better than yesterday  
As I sit and think about all the love we made  
Lovin' this life knowin' things will never change  
Some things are hard to hate

I love open hearts and drinks in jars  
Like old guitars love pickin'  
I love smokey bars and cheap cigars  
And those late nights with women

And everything that I don't like  
I left behind in my old life  
I just wanna run  
Living wild and free

Walking through the rain like a sunny day  
And I'm watching all the years just roll away  
Waiting till the day that I'm old and gray with you  
Tomorrow will be better than yesterday  
As I sit and think about all the love we made  
Lovin' this life knowin' things will never change  
Some things are hard to hate

These days are going so fast  
Running on fumes  
Hoping they last  
Letting go of all the things  
That slowed me down in my past  
Because these days  
Are going by too fast

Walking through the rain like a sunny day  
As I'm watching all these years just roll away  
Waiting till the day that I'm old and gray with you  
Tomorrow will be better than yesterday  
As I sit and think about all the love we made  
Lovin' this life knowin' things will never change  
Some things are hard to hate

Walking through the rain like a sunny day  
As I'm watching all these years just roll away  
Waiting till the day that I'm old and gray with you

Tomorrow will be better than yesterday  
As I sit and think about all the love we made  
Lovin' this life knowin' things will never change  
Some things are hard to hate
