

# Old Lost Road

Struggle Jennings

Yeah

I say hello, just to say goodbye

Uh, different day stranger faces, I feel at home in the strangest places  
Not complacent, so I chase it  
Success is comin', breathe deep and taste it  
Movin' fast pastime I wasted, the picture painted now worn and faded  
All the money that I made was overrated  
Hurt more than I anticipated when I lost it all, my family devastated  
Bad situation that I created, I was deep in debt with the devil  
From all karma, I accumulated

Obligated to protect the ones that I love  
Now it's kinda complicated 'cause I'm fightin' demons that I can't see  
So I'm swingin' blind gettin' frustrated  
Soul is sacred, don't sell it cheap  
For some empty dreams, that's gold-plated  
We said goodbye, but I still hope that we meet again and we both made it  
Intoxicated just to ease the pain of the loneliness of that big crowd  
Stage lights, light the way, silence comes as they sing it loud

You ever been so close, you just know (close, you just know)  
You ever second guessin' when you go (go)  
You ever see me when your dreamin' gotta ask 'cause it ain't easy  
Livin' on this old lost road (old lost road)  
Livin' with a worn-out ghost (worn-out ghost)  
Broken, but you never ever show it (show it)  
So, when our paths cross again, I'll be ridin' with you, baby  
When I'm on that old lost road (old lost road)

Yellow lines and them mile markers  
Always lead the way to a place farther  
Away from home while I'm singin' songs to a full glass and a bartender  
Hard feelings and a detour around each street that I pass by  
Just last night, I got too drunk and I woke up as the bad guy  
Bad decisions and a good time, your good morning's my bedtime  
My future bright in these headlights  
I forgot your name and we meet twice

Hello, follows with a goodbye, empty bottle and a memory  
If this lost road is your remedy for your misery, then remember me

You ever been so close, you just know (close, you just know)  
You ever second guessin' when you go (go)  
You ever see me when your dreamin' gotta ask 'cause it ain't easy  
Livin' on this old lost road (old lost road)
