Savior

Struggle Jennings

```
I'm aware of who I am
And I hold my own
Grandaddy said you fight that urge
To play along
Leave nothing but a stone
When you die
And give them all you've got
Every night

I've been a sinner
And I've been a saint
I've dropped the ball
And I've saved the day
I've been the problem
And I've been the fix
I've been the savior
And a son of a bitch
A son of a bitch

I come from a dying breed
Where blood runs strong
All the miles while chasing dreams
A rolling stone
I never had a fear
For the other side
Gave everything I have
On the ride

I've been a sinner
And I've been a saint
I've dropped the ball
And I've saved the day
I've been the problem
And I've been the fix
I've been the savior
And a son of a bitch
A son of a bitch

I've been a sinner
And I've been a saint
I've dropped the ball
And I've saved the day
I've been the problem
And I've been the fix
I've been the savior
And a son of a bitch

I've been a sinner
And I've been a saint
I've dropped the ball
And I've saved the day
I've been the problem
And I've been the fix
I've been the savior
And a son of a bitch
A son of a bitch
```
