# Shoulda Woulda Coulda

**Struggle Jennings**

Yeah I've been there
Been told I can't win there
Been known to fit in where
I ain't meant to be

I've been grinding
Trusting in God's timing
Constantly reminded
My past ain't defining me

Came too far to let go now
Nothing to prove got a lot to show now
Yeah I came too far to let go now
Nothing to prove got a lot to show now

All them woulda shoulda's can't never done what I did
Been where I've been
(Shoulda woulda coulda)
Climbed that hill fell down came back again
Shoulda woulda coulda never done what I did
(Shoulda woulda coulda)

Burned by the fire
I held the lighter
Til the flames held higher
And I can't barely see

I've been blinded
Misled and guided
Watched the storms collide and somehow came out dry and free

Came too far to let go now
Nothing to prove got a lot to show now

All them woulda shoulda's can't never done what I did
Been where I've been
(Shoulda woulda coulda)
Climbed that hill fell down came back again
Shoulda woulda coulda never done what I did
(Shoulda woulda coulda)

Climbed that hill fell down came back again
Shoulda woulda coulda never done what I did
(Shoulda woulda coulda)

This road was long
Them miles was longer
I found my weakest moments only made me stronger

I bet it all
Like I had nothing to lose
You might've got the t-shirt to prove
But baby I got the tattoo

Came too far to let go now
Nothing to prove got a lot to show now
