

## Sunny Days

Struggle Jennings

I had pain baby, hangin' on my mind  
And I've been sufferin', bottom of my soul, my whole life  
Slip a little deeper in the quicksand  
May the tide come and sweep me away  
'Cause I've been prayin' for a long time  
For a sunny day

Raindrop dropped on a cracked window  
Caught in the web of a black widow  
Hunger pain's hurtin' like there's no dinner  
Cursed by the curse of a go-getter, go get it  
No feeling numb to the heartbreak  
Blood on my fang like a raw steak  
Part-take with the law-break, here we are  
Wait, family first, gotta make sure that we all straight  
Any means necessary, kinda scary when you're starin' in the barrel  
Bein' carried by a man with nothin' to lose, split second to choose  
Breath smellin' of booze, red eyes singin' the blues  
Uh, but I never broke stride  
Lookin' in, freezin' 'cause it's cold outside  
Drownin' in the storm, goonies never say die  
So I'm lookin' at the sky like, "Motherfucker why?"

I've had a pain baby  
Hangin' on my mind  
And I've been sufferin'  
At the bottom of my soul my whole life  
Slip a little deeper in the quicksand  
May the tide come and sweep me away  
'Cause I've been prayin' for a long time  
For a sunny day

My daddy was a dope boy, he went away  
Mama was a stripper she was dancin' so the bills will get paid  
My grand daddy died alcohol drowning sorrows and pain  
And there's a tugging at my soul, don't let go or it was all done in  
vain

I've had a pain baby  
Hangin' on my mind  
And I've been sufferin'  
At the bottom of my soul my whole life  
Slip a little deeper in the quicksand  
May the tide come and sweep me away  
'Cause I've been prayin' for a long time  
For a sunny day
