

# Trouble

Struggle Jennings

Let's get high, I feel low  
Got no time, to move slow  
But I'll be looking for what I'll be findin'  
I'm on the highway, I'm doing ninety

Looks like I've been cryin'  
Won't ever be like when we were ridin'  
So I'll lie tell you I'm fine 'cause I'm goin' baby no more goodbyes  
You talk too much every time I want love  
I'm done can't deny it all the time no more  
I can't keep hishin' just for a few dollars  
Been a long long time and I'm done

Every little secret  
Promise that you mean it  
I've seen your true colors  
Now I know your trouble

Every little secret  
Promise that you mean it  
I've seen your true colors  
Now I know your trouble

I've been tryin' the hardest  
Put my heart in left me so heartless  
You'll soon find out it's a cold world  
It ain't givin' out no pardons  
Drop your soul get some for a bargain  
You don't know what you started  
That serpent in the garden that's why I always guard it

You talk too much every time I want love  
I'm done can't deny it all the time no more  
I can't keep hishin' just for a few dollars  
Been a long long time and I'm done

Every little secret  
Promise that you mean it  
I've seen your true colors  
Now I know your trouble

Every little secret  
Promise that you mean it  
I've seen your true colors  
Now I know your trouble

Every little secret  
Promise that you mean it  
I've seen your true colors  
Now I know your trouble

Every little secret  
Promise that you mean it  
I've seen your true colors  
Now I know your trouble
