

# Twisted

Struggle Jennings

Don't get me fired up 'cause I got a short fuse  
Set it off you gonna smell them fumes  
Imma burn it all down  
You can light it all up

You think I won't hear 'bout what you said  
I got ears all around this town  
Don't be talking too loud  
Imma find out

Might've changed my ways  
But I never switched up  
I can be the same mother fucker I once was  
I'm still with it  
Don't get it twisted

I don't want no smoke  
But with gasoline I can bring the mother fucker back out of me  
I'm still with it  
Don't get it twisted

Come on

You can cross that line  
You can get riled up  
Bet that wager on how this goes  
You can roll them dice  
You can try your luck

Now you can talk real tough  
Imma call your bluff  
Did you forget about who I am  
Leave it on the table  
With a deadman's hand

Might've changed my ways  
But I never switched up  
I can be the same mother fucker I once was  
I'm still with it  
Don't get it twisted

I don't want no smoke  
But with gasoline I can bring the mother fucker back out of me  
I'm still with it  
Don't get it twisted

Like kerosene  
On a folding table  
So light it up and watch it burn burn burn

Might've changed my ways  
But I never switched up  
I can be the same mother fucker I once was  
I'm still with it  
Don't get it twisted

I don't want no smoke

But with gasoline I can bring the mother fucker back out of me  
I'm still with it  
Don't get it twisted

Don't get it twisted

Don't get me fired up 'cause I got a short fuse  
Set it off you gonna smell them fumes  
Imma burn it all down
