

# The Animal And The Machine

Strung Out

For every bullet in your gun we've got plan  
To change the world and make it better  
This song's for everyone screaming from the pit  
We are the soundtrack  
We bleed together strong  
Nobody here's pretending that we got this figured out  
Some things are better unknown  
We all got something that we feel better let it out  
Before the whole thing blows

We've all  
Been down this road before  
Our history  
It shows exactly what we're headed for

Can't save the world but you can always tend the neighborhood  
I wanna live and die for something good  
Emancipate the soul  
Tell your brother he's not alone  
Cuz life's too fucking short to become victims of each other

We are the story of the animal and the machine  
We are more than just life  
We are serrated by the things we always hated  
So what's the point of all

The dogs  
Layin' at our feet  
These battle songs  
Playing on repeat  
Ocean tides  
Crashing at our knees  
As the stranger in us all finds comfort  
Somewhere in the heart of the machine

Gutter angels played guitar when you couldn't sleep  
You're the reason you're the consequence  
You howl cuz you're goin' mad  
In the chaos of this consecration a room without a view  
Time will only take from us  
What we knew we'd always lose

We are the story of the animal and the machine  
We are more than just life  
We are serrated by the things we always hated  
So what's the point of all

The dogs  
Layin' at our feet  
These battle songs  
Playing on repeat  
Ocean tides  
Crashing at our knees  
As the stranger in us all finds comfort  
Somewhere in the heart of the machine
