

White Girls

Strung Out

Everybody gather round the shows about to start
We've gathered all your friends and enemies
There's a madman at the door
And he swears you ordered more
Ammunition to your hotel balcony

Everybody got a way to get it on
Everybody got a way to die
The frequency is a cult of armageddon the drugs have just begun
to
Take their hold on you

Here where the sun goes down
In Californ-eye-aye
The boys of summer play
The white girls cross themselves before they give it all away

We are gathered here to celebrate the end of days
The information you've received is sponsored by
The KKK and the CIA
This digital insurrection got a hold on you

Here where the sun goes down
In Californ-eye -aye
The boys of summer play
Under clouds of resurrection
On a chemical new day

Welcome to the undertow
We all gotta price to pay
Leave your keys at the door
It's time to come and play
Everybody gather round now the shows about to start
We've gathered here today
To watch all hell break loose
