

## Big Screen Lies

Stryper

You've got to love how they portray Christianity  
Just a freak another fool for the world to see  
Twisting and distorting all, making money too  
Mocking every thing that's said, they don't have a clue - no!

Big screen lies, it's no surprise  
I'm getting wise, to the big screen lies

It's the way it's always been, persecuting rules  
As the wolfs lie in their den, sharpening their tools  
Feasting on the faith of those, who dare to make it known  
As a warning to the foes, you'll reap what you've sown - oh yeah!

Big screen lies, it's no surprise  
I'm getting wise, to the big screen lies

Big screen lies, it's no surprise  
I'm getting wise, to the big screen lies  
Big screen lies, it's no surprise  
I'm getting wise, to the big screen lies
