Stryper

A twilight's gleam  
Our souls collide  
Forged within the fire  
Two hearts are defined

Your beauty casts  
The perfect hue  
And in your warm embrace  
Is where I find the truth

Through trials of flames  
Our world survives  
And in our own anthem  
We're perfectly profound  
Perfectly profound

Love's symphony  
In synchrony  
Passion's desire  
Fueled by the fire  
Our minds combined  
Spirits aligned  
An epiphany  
Love's symphony

Your rhythm  
Beautiful and strong  
With harmonies of bliss  
Is where I now belong  
We live in sync  
Never apart  
And in our musical  
We play the perfect part  
(We play the perfect part)

Love's symphony  
In synchrony  
Passion's desire  
Fueled by the fire  
Our minds combined  
Spirits aligned  
An epiphany  
Love's symphony
