

# Make Love Great Again

Stryper

(Make love great again)

I've been tryin'  
To get it right  
Tears I'm cryin'  
Dark as night  
These times are changing  
So am I  
I'm rearranging  
Wrong from right

But hope is alive, it never died

Make love great again  
Fight for it till the end  
Don't let the darkness in  
Make love great again

There's a culture  
That's building walls  
Just like vultures  
Consuming all  
Oh, but there's a fire  
That's burning bright  
It won't expire  
Even in spite

Of hatred  
It's flames, they are sacred

Make love great again  
Fight for it till the end  
Don't let the darkness in, no  
Make love great again

Make love great again  
Fight for it till the end, yeah  
Don't let the darkness in, no  
Make love great again  
Yeah  
Make love great again  
Make love great again (Make love great again)  
Make love great again  
Oh yeah yeah  
Make love great again  
Love
