

Pride

Stryper

We all have something to do
And we all have somewhere that we're going to
We all have something to say
And we'll take down those who get in our way, yeah

We let the mind control the heart
Tearing the best we have apart
We've got conviction deep inside

We've got to let it ride!
Tell me why? Pride!
Tell me why...

Two friends who shared the past
No one could have guessed that it wouldn't last, no
I know it can be restored
If forgiveness is something that's never ignored, no

We can't let fear and jealousy
Take everything that we should be
We can't let life just pass us by

We've got to let it ride!
Tell me why? Pride!
Tell me why, tell me why, tell me why...

Pride!
You've got to tell me why...
Tell me why? Pride!
You've got to tell me why...
Tell me why? Pride!
Tell me why, tell me why, tell me why...
