

Raptured

Stryper

I remember the story
Of how we came to be
A beautiful vision
You've always been to me

A romantic movie
A rainy day in bed
You're my only escape
And the shelter where I'm led

When you are gone
Life's not the same
But when you are here
Unashamed

I'm raptured, raptured
Raptured by your love
I'm captured, captured
Captured by your love
I'm captured by your love yeah
Oh

From the beginning
I knew that you would be
The start and the ending
Everything in between

More than the stars
Much more than the universe
My near and my far
My simple and diverse

I feel alone
When you're away
But when you return
I can say

I'm raptured, raptured
Raptured by your love
I'm captured, captured
Captured by your love

When you are gone
Life's not the same
But when you are here
I can say, unashamed

I'm raptured, raptured
Raptured by your love
I'm captured, captured
Captured by your love

I'm raptured, raptured
Raptured by your love
I'm captured, captured
Captured by your love
By your love
