

Every Time I Fall

Stu Larsen

I saw you walking on the water
You heard me singing you this song
Now your head is on my shoulder
But I am wondering for how long

Cause I don't believe

You see that mark upon the wall there
It's where your photo used to be
I took it off and it feels so bare
Didn't want you looking down on me

I don't believe
The love you feel

Every time I fall, I fall for you
Every time it feels like something new
Every time I fall, I fall harder than before
But is it real?

If I could dance I'd take your hand, babe
You'd feel my body start to shake
If I could be your leading man, babe
I'd be in every film you make

But I don't believe
The love you feel

Every time I fall, I fall for you
Every time it feels like something new
Every time I fall, I fall harder than before
But is it real? But is it real?

Why do I keep falling?
Why do I keep falling?
Why do I keep falling?
Why do I?

Every time I fall, I fall for you
Every time it feels like something new
Every time I fall, I fall harder than before
But is it real? Is it real?
