Stuck Mojo

If you look at the Islamist ideology, what they teach in this theology, it is the antithesis as what is being taught in the Bible. It is very interesting. If you look at the Anti-messiah or Antichrist in the Islamist dogma, he comes leading the Jewish and the Christian world in a battle in Jerusalem. Now, if you see the [?], right now there's a unity between Israel and the Western Christian world if you will. So in their perspective, wow, their prophecies are true. It's amazing how these things written long time ago, knowing what's gonna happen in the future. From the Islamic view, the Mahdi or the messiah of Islam, he brings a seven-year peace treaty. Well, from the Christian perspective, the Antichrist brings a seven-year peace treaty. So the Antichrist of Christianity is really the messiah of Islam. And the messiah of Islam is the Antichrist of Christianity. Now the question I was asked myself when I was studying the Qur'an and the Bible and the Hadith and all these things, is how in the world was this all orchestrated, you know, a thousand years ago, in order to kind of, you know, set up a stage of what the Bible has been talking about? If you look at the Bible itself, every single country that is mentioned in the Bible regarding the ends of days, every single one of them is Muslim

It will raise your hair, the kind of operations they were running in mosques bringing speakers from all over the Muslim globe in the heartland of America. In Chicago, all over the place, in every single capital in every state in this country. And these were hard-line terrorists, by the time they come out of the mosque and they're teaching the people all this stuff, they become all of a sudden peaceful Muslims. So they can switch back and forth

But you must look at organisations like CAIR, Council on American-Islamic Relations. This is a group that comes on television suing American corporations for mistreatment of Muslims. If you look at their statements, if you look at their activities, they were aiding in embedding terrorism long time ago. They were [?] in embedding terrorism, and they made this statement very clearly to the whole world, they said, you know, Islam in America is not here to be a religion, but Islam in America is here to be the dominating religion. This is why you see the Muslim demonstrations that carry this banner, that says "Islam to the world". In essence, they want to take over the whole world  
In essence, they want to take over the whole world  
The whole world
