

## Hang 'Em High (Loser's Theme)

Stuck Mojo

About 5 years been hanging with this fool  
The vibe was down everything was cool.  
420 buddy most our times were nutty  
I guess over time our friends get funny  
Money feeds needs, needs feed greed  
PH trees he had to puff see.  
Flipped on me into a backstabbing breed  
Transformed my man into a wannabe!!!!!!!

I say we hang 'em high!  
Used to be the man, now you're just a backstabber  
My sense of trust knocked down to a lower level.  
Digging a hole, you probably stole the damn shovel.

You used to be my friend, but now you're just a backstabber.  
My sense of trust knocked down to a lower level.  
Digging a hole, you probably stole the damn shovel.  
You wanna be the man on top, but you got no skills.  
You wanna be the man on top, you need a miracle pill.  
Even new friends I back to the end reached out through words.  
They had the nerve called off the dogs,  
Didn't want to be involved.  
But saving the friend's life still got cut by the knife  
Spineless swine to had to turn over much too soon for things to blow  
over.  
Wishing so hard to be down with a scene transformed my man into a wan  
nabe!!!

I say we hang 'em high!  
Used to be the man, now you're just a backstabber  
My sense of trust knocked down to a lower level.  
Digging a hole, you probably stole the damn shovel.  
You used to be my friend, but now you're just a backstabber.  
Used to be the man, now you're just a backstabber  
My sense of trust knocked down to a lower level.  
Digging a hole, you probably stole the damn shovel.  
You used to be my friend, but now you're just a backstabber.

You wanna be the man on top, but you got no skills.  
You wanna be the man on top, you need a miracle pill.

You wanna be the man on top, but you got no skills.  
You wanna be the man on top, you need a miracle pill.

Used to be the man, now you're just a backstabber  
My sense of trust knocked down to a lower level.  
Digging a hole, you probably stole the damn shovel.  
You used to be my friend, but now...
