

I Am Legion

Stuck Mojo

I am legion, the one who's in command
A vessel of intent and I am here to reprimand
I am legal, I am pain
I am hatred, I am hate
The voices in your head
Wishing you were dead
Steering on this twisted path
Driving through the depths of wrath
I may not be your I am the one to regroup
Serve me, I'm your master
A disaster
Chaos and power pushing me in tower

I am the dark
I am the fountain
I am the shadow that you will poison
I am the wolf
I am the hunter
6 - 6 - 6, that's the number
I am the angel of death
I am the upper hand
I am the god of war
I am the boogeyman
I am your fear
I am the monster
6 - 6 - 6, that's the number
I am legion the coming of the night
Disciple of rage dance before the stage
Serving all places
My beautiful appearance to adherence
The lies to the wise
The lord of the flies
Weakness of the mind for all of mankind
Knowledge is for purps
Ignorance is worse
Aah, kill me ah

I am the dark
I am the fountain
I am the shadow that you will poison
I am the wolf
I am the hunter
6 - 6 - 6, that's the number
I am the angel of death
I am the upper hand
I am the god of war
I am the boogeyman
I am your fear
I am the monster
6 - 6 - 6, that's the number
I am legion
This is not the end
So now I shall thank sinners who suffer
One way or another
Sacrifice the casualty
Breaks of immortality
Embrace mortality

Falling from grace
I am up against grace
Reap through all your fear
The apocalypse is here
Tortured by the scife
Bring it to your life
Into the abyss
Sent down by a fist

I am the dark
I am the fountain
I am the shadow that you will poison
I am the wolf
I am the hunter
6 - 6 - 6, that's the number
I am the angel of death
I am the upper hand
I am the god of war
I am the boogeyman
I am your fear
I am the monster
6 - 6 - 6, that's the number
