

## Sing Along

Sturgill Simpson

Words can stab as deep as night  
And cut like razor thorn  
Bitter air and winds of spite  
Like the cold of winters scorn  
Leaves may fall on sleeping ground  
But the wind sweeps them away  
Like hurt lovers in the final round  
What once was in now decay

I can't go on living alone now that you're gone

A single strand of spider's weave  
Just dancing in the sun  
Please don't turn around and leave  
You are my only one  
Compromise is made out of peace  
But history is made out of violence  
After the war of words has ceased  
All that's left is the deafening silence

I can't go on living alone now that you're gone  
You done me wrong so here's your song  
Now sing along baby

I know you know that you're killing me  
But its worth it just to see you smile  
Tell em' to carve my name in the barstool baby  
You know I'm gonna be here a while

A single strand of spider's weave  
Just dancing in the sun  
Please don't turn around and leave  
You are my only one

I can't go on living alone now that you're gone  
You done me wrong so here's your song  
Now sing along
