

## Break Away

### Sturm und Drang

I am the one, no longer petrified  
Who's seen the lights in the blackest night  
You wanna know if mind just purify  
Can clarify this whole life  
So see that these things are pretentious  
And just take my hand

Break away  
From this never-ending wheel  
That's spinning on and on  
Break away  
Their backs against the wall  
Break away

Break away

I set you free and you'll forever see  
That to your heart it has no key  
You bear alone the loss of all those years  
But all the loneliness and pain  
Now I see that those heroes were cheaters  
So just take my hand

Chorus

Break away

Break away  
From this never-ending wheel  
That's spinning on and on  
Break away  
From this never-ending wheel  
That's spinning on and on and on  
Break away  
Their backs against the wall  
Break away

Break away (3x)
