Verse1 [Ryu]

No question I stretch em boflex

Coke checks homey we coat tecks

Pussy we don't really feel you like phone sex

Ya styles a hollogram the crowds intollerant

I rocked it no sweat

Before the 10 grand wasted in France

Hit the stage gave the whole place a taste of the ranch

No question

Ima straight monster spittin the white stuff

On the tape Kate Moss was sniffin

Uncut

You fuck-ups got it twisted once again

I'm sicker than Sid Vicious on a 6 day benge

Any friends wanna jump in? I'll ixnay them

Out the picture when that switchblade

Slits they ribs

In the streets we crush em like toy cars it's nothin

Ya whole squads like a bunch of Boy Georges frontin

Fuck em!

So don't trip I'll slip that gold necklace

Off and hit the pawn shop

Quick

No question

Chorus

Verse 2 [Tak]

Ladies and gentlemen I'm raisin adrenaline

See my

Flavor is limitless a brain full of riddlin

Hmm

Subterranean take a train to get into it

Get it?

Come on let's kick I'm bound to show you a thing or 2

Follow me now and watch the razor light hit
I'm bout to bring it back to the days of Syprus
Lickin a shot
Starin out the temple of boom
A major crisis
Especially when I step in the room
Haha haha
Laughin at you cuz you don't even know the type
Another rap group that seemed to happen over night
Well?
Let's compare the trash on the shelves
And see how many consumers walk around askin themselves
Are we ever gonna get the chance to hear it again?
Or has the era forever vanished and nearing it's end?
Naw
I'm hear to testify and let the peeps know
That we'll keep on sellin piles
Rain, hell, sleet snow

Chorus
