Ride on my life and watching the side mirrors
You won't smell smoke, you pray that the sky near us
Ask god for forgiveness, you happen to divide with us
So far I've given you so bars
Got a new frame but I'm still seeing the old scars
New frame, I'm thanking my nigga
Know that I'm so charged
5 star general, all the stars is gold stars
And I got all of my stripes
You could ask your boss about me, you could call him a night
You don't know me and this man do and what this plan do
And this whip moving fast but I got the handle
Me and I stay ready
And I came from the bottom my nigga I'm wave petty
I got the [?] you know that the jay ready
Wanna meet with the reaper? I'm getting the day ready
Ghost!

When I'm on a mic you know that I spit different

No stress on the chest more stress on the brain
Stress on the soul but know I'm more ordain
Found my [?] but believe me I could move through Orleans
A nigga staying alive, staying out the way
I upgraded the vibe, I subscribe to energy, if it's all good
If it's bad, then I'm bouncin' out or pullin' out the .9
You see ghost figure
I figured you ain't going
If you ain't got dough when I was drinking more liquor (I got that)
Just imagine when my act clean
Alkaline body, I'm never taking a vaccine
I reclaim my time like Maxine
Cause I was in the waters with the crack fiends
I was in the mud with the dope fiends
Came from a gritty place, why you think I'm so clean?

To get skin full as goat, cause you thinking you the goat
You should smoke with me, if you thinking you could float
Catch me overseas nigga, waking from the boat
If I throw the jet sign, I'm only saying I hang loose
Ima need a plug in Hawaii you know I slayin' foo
Yeah I say peace a lot, but know I bang too
