

Never Safe

Styles P

Lookin' in the mirror
Just tellin' myself the framework
Gonna take the cash for the sins you have to pay for
...I blow the lunch and travel the smoke
Even the Earth...
Serpents in my sleep
Well, I'm fully awake
Left the angels, they got my back
Or it could be faith
Nigga is my traveler soul Earth
I take my niggaz on the high-way
Out of the state
Touch your way
But Jimmy ain't around
If you're the king
Then you're a dead man
Really, do we give him a crown?
Shit!

I'm just trying to talk sense to you
This is your homie
But I bet he won't pay rent for you
...Just think what I've said to you
Will you feed him seed if you needed to?
You all follow the path that big leaders do
If you bleed for me I'll bleed for you
And be right there when you need me to
Other than that
Let's go our separate ways
Cause I'm a jungle with the lions in a leopard state
Niggaz let it spread it like a pepper spray
Could everybody pray for a better day?

I meditate to elevate
Then I'll medicate to levitate
Our ways outside where is never safe
Our ways outside where is never safe

I meditate to elevate
Then I'll medicate to levitate
Our ways outside where is never safe
Our ways outside where is never safe

Real niggaz are looking for a better contact
Rap niggaz just sign their contract
Niggaz never leave their brother behind
Back then, you told them you give them your last dime
The way he's kicking
It's just the past time
Now there are past times when we move the black nights
All the money went with the hoes world
Come on, they design like the clothes was
You're a low down nigga
No low
Look, no tears, no sweat, no blood
Our ways outside are never safe
Down to the cush and the devil tryin' to levitate

You're a bitch, nigga don't make me demonstrate it...

I meditate to elevate
Then I'll medicate to levitate
Our ways outside where is never safe
Our ways outside where is never safe

I meditate to elevate
Then I'll medicate to levitate
Our ways outside where is never safe
Our ways outside where is never safe
