

## Time

## Styles P

Gotta feel the vibes, you know  
Just go with it  
Light somethin' up, turn this shit up  
Lay back, listen to me, for real  
Space Ghost, you know  
Hahaha, it's my time, as always  
(Vinny Idol, nigga)

If you kick it on the strip, you know the ticket on the grip  
But them rat niggas is snitchin', get to flippin' on the clique  
Pussy niggas is loud, with the blicker they'll rift  
But golden niggas is silence when they lift it off they hip  
Yeah, all you heard was a shot flew  
Tried to get the lesson, but messages never got through  
Why you think I'm rollin' the roaches up  
Probably on a island, my nigga, sippin' a coconut  
Wasn't loc' with us or broke with us  
You ain't sleep on the floor, imagine you bein' woke with us  
All I know is all dead bodies'll keep the vultures up  
All of ya addiction is fiction, nigga, pulp is up  
OJ with the glove, Rose in the tub  
Connected with the Haitians, Peter Gatiens of the club (hahaha)  
A nation of gangsta niggas that always show me love  
'Cause I came from the mud  
Yeah, stay humble for thin lines  
If he got the silk suit, then he came with the thin nine  
I ain't workin' out shit, I ain't speakin' on gym time  
I'm just prayin' that ya mind can shine like the rims shine  
Yeah, I illuminate like the moon glow  
Doomsday is my day one, I ain't doom though  
Short nigga, but make room though  
I don't give a fuck if you came with a thousand goons, bro  
Ghost

I-I illuminate like the moon glow  
Came-came from the mud, yeah  
Doomsday is my day one, I ain't doom though

You tryin' to be a nigga you was never not  
Work that you never sold, guns that you never shot  
Money that you never made, never handed out a fade  
School of hard knocks, wasn't there, never got a grade  
I was doin' dirt when Special Ed made I Got It Made  
Somebody gettin' cut, face or gut, if I got a blade  
Call my gun can, let it spray like I got a Glade  
That was back then, not now, not nowadays  
I used to have hammers everywhere  
Smarten up 'cause they have cameras everywhere  
Heard you on the grizz', niggas lyin', you was a teddy bear  
Wolves come out when it snow, yeah, it's petty here  
I take a quarter like the meter does  
I'm doin' everything that a leader does  
I'm doin' everything that a soldier does  
You ain't play the jungle, you ain't know what a cobra was

Take a look at me, you ain't know what a nova was  
Niggas wanna kill me, give a fuck, give a shoulder shrug  
Show the holster, got the older snub  
Wiz got the newer nine, thought these niggas knew the time  
Ghost

I-I illuminate like the moon glow  
Came-came from the mud, yeah  
Doomsday is my day one, I ain't doom though
