

Angel

Sub Focus

Little stars
Out in the distance like flashing cars
I take a breath
Stay in the moment and count to ten

Tell me where you go when you're alone
Let me in your dreams, you know I'll follow, follow
Tell me all the stories never told
I can't hide it anymore, you know I

I'm falling for an angel
Can you catch me before I hit the ground?
I'm calling for an angel
Can you save me when I'm falling down?

Calling for an angel
Can you catch me before I hit the ground?
I'm, I'm, I'm

I'm falling for an angel
Can you catch me before I hit the ground?
I'm calling for an angel
Can you save me when I'm falling down? (I'm, I'm, I'm)
Calling for an angel
Can you catch me before I hit the ground?
(I'm, I'm, I'm, I'm)

Hold me close
Be my forever, my afterglow
Be the rain
Wash out my heartache, be my escape

Tell me where you go when you're alone
Let me in your dreams, you know I'll follow, follow
Tell me all the stories never told
I can't hide it anymore, you know I

Can you catch me before I hit the ground?

I'm, I'm, I'm
