

# Don't Want To Come Down

Sub Focus

When I take myself tomorrow  
Will the height be bigger than the fall?  
What goes up must come down, I know  
How much longer can I soar

I don't ever wanna come down, come down, come down  
I don't ever wanna come down, come down, come down  
I don't ever wanna come down, come down, come down  
I don't ever wanna come down, come down, come down  
I don't ever wanna come down, come down, come down  
I don't ever wanna come down, come down, come down

There are lights upon the ceiling  
Empty glasses on the floor  
I am filled with such an elation  
That I never felt before

Don't ever wanna come down, come down, come down  
I don't ever wanna come down, come down, come down  
I don't ever wanna come down, come down, come down  
I don't ever wanna come down, come down, come down

I don't ever wanna come down, come down, come down  
I don't ever wanna come down, come down, come down  
I don't ever wanna come down, come down, come down  
I don't ever wanna come down, come down, come down
