

Elevate

Sub Focus

Opened up my eyes
I can see the sunshine
Heading to the bright lights
I was chasing that weekend glow
Oh-oh, oh-oh, oh

Didn't know your name
But I recognise your face
Now we're flying into space
Got me losing all of my control
Oh-oh, oh-oh, oh

You make me elevate
Get high off your energy
We let go
You make me elevate
Get high off your energy
We let go

We let go
We let go
We let go
We let go

You make me elevate
Get high off your energy
We let go
We let go
We let go

I just wanna move to the rhythm of the drums
Feel a little head rush, now we're chasing that weekend glow
Oh-oh, oh-oh, oh

It's a miracle how we're moving like that
Time to let it go, when we see the lights get low
Oh-oh, oh-oh, oh

You make me elevate
Get high off your energy
We let go
You make me elevate
Get high off your energy
We let go

You make me elevate
Get high off your energy
We let go
You make me elevate
Get high off your energy
We let go

We let go
We let go
We let go
We let go
