

Entwined

Sub Focus

I could cross the desert, cross the seven seas
I would climb the mountains to feel your gravity
I would travel light years, the stars and galaxies
'Cause I could find you in the energy

You and me entwined
Are you a mortal or divine?
Time to colonize
Still feels like I'm dying in my mind

When

When I move with you, in two, another dimension
And I lose my mind, the sense of time, my inhibitions
I move with you, in two, another dimension
And I lose my mind, the sense of time, my inhibitions
When I move with you, in two, another dimension
And I lose my mind, the sense of time, my inhibitions
I move with you, in two, another dimension
And I lose my mind, the sense of time, my inhibitions

You and me entwined (Another dimension)
Are you a mortal or divine? (Another dimension)
Time to colonize
Still feels like I'm dying in my mind

You and me entwined
Always said you'd calm my mind
Time to colonize
Every corner of this life
