

# Freedom

## Sub Focus

I have been waiting, and I've missed my win  
I have been fading without you  
The air's getting warmer, the walls are closing in  
Days feeling longer without you

What if we just keep our eyes closed?  
We can dream that we're on  
An open road  
Another place, another time  
We can leave it all behind right now

So where you gonna be when this  
Freedom, freedom, freedom comes?  
Where you gonna be when this  
Freedom, freedom, freedom comes?

So where you gonna be when this  
Freedom, freedom, freedom comes?  
Where you gonna be when this  
Freedom, freedom, freedom comes?
