

Go Back

Sub Focus

I knew it from the start
You'd leave me in the stars
Like heaven in the dark
I'm a dreamer, take me deeper

Tell me it's more than a memory
'Cause deep in my heart, you belong to me
Gave you a part of my soul to keep
Forever, forever

When I hear that sound
And the lights go down
I wanna go back, I wanna go back
When the silence fades
And I fall like rain
I wanna go back

When I hear that sound
And the lights go down
I wanna go back, I wanna go back
When the silence fades
And I fall like rain
I wanna go back, I wanna go back

I'm frozen in that time
But melting in your eyes
Feel our worlds realign
I'm a dreamer, take me deeper

Tell me it's more than a memory
'Cause deep in my heart, you belong to me
Gave you a part of my soul to keep
Forever, forever

When I hear that sound
And the lights go down
I wanna go back, I wanna go back
When the silence fades
And I fall like rain
I wanna go back, I wanna go back

Go back, go back, go back, go back
Go back, go back, go back, go back
Go back, go back, go back, go back
Go back, go back, go back, go back

[illegible]

When I hear that sound
And the lights go down
I wanna go back, I wanna go back
When the silence fades
And I fall like rain
I wanna go back, I wanna go back

When I hear that sound
And the lights go down
I wanna go back, I wanna go back
When the silence fades
And I fall like rain
I wanna go back, I wanna go back

I wanna go back, I wanna go back
I wanna go back, I wanna go back
I wanna go back, I wanna go back
I wanna go back, I wanna go back
