

Lost In Heaven

Sub Focus

Yeah, hey

Smoke rings in the front seat of your A class
Skyline looks so far but we on the gas
And the phone rings, you'd answer, but they all wanna know
Where you been, now you stay lost in heaven

Moments like this, me and you, I see heaven
Moments like this, me and you, lost in heaven

World stops, when the sirens hit your window line
Just turn off, I promise you no other sky is better
Than the one you'll see in that parking lot
Oh, while we're here I feel so lost in heaven

Moments like this, me and you, I see heaven
Moments like this, me and you, lost in heaven

Lost in heaven
Lost in heaven
Oh, heaven, heaven
Moments like this, me and you, lost in heaven
Oh, heaven, heaven
Moments like this, me and you, lost in heaven

Oh, heaven, heaven
Moments like this, me and you, lost in heaven
