

# Off The Ground

## Sub Focus

Fire, you got me through the cold  
A path that's paved in gold  
And when darkness weighs me down  
You lift me off the ground

The ground, the ground, the ground, the ground, the ground  
You lift me off the ground  
The ground, the ground, the ground, the ground, the ground  
Yeah, you lift me off the ground

Yeah, you lift me off the ground  
Yeah, you lift me off the ground

You lift me off the ground

Fire, you got me through the cold  
A path that's paved in gold  
And when darkness weighs me down  
You lift me off the ground

The ground, the ground, the ground, the ground, the ground  
Yeah, you lift me off the ground  
The ground, the ground, the ground, the ground, the ground  
Yeah, you lift me off the ground

You lift me off the ground  
You lift me off the ground  
Yeah, you lift me off the ground
