

Push The Tempo

Sub Focus

Don't know what's coming over me
Did my head get lost in a memory?
Every time, I'm my own worst enemy
(Let's go, let's go, let's go, let's go)
Feel my whole body heightening
Now your eyes on me, yeah, you're wired in
Buckle up 'cause the night, gonna ride it
(Let's go, let's go, let's go, let's go)

Get close
Don't know what you been told
But it's all mirrors and smoke
We should lose control
Just leave
All that pressure, get free
I got all that you need
Can you get on my speed?
Push the tempo

Push the tempo, push the tempo
Push the tempo, push the tempo

Don't know what's coming over me
Did my head get lost in a memory?
Every time, I'm my own worst enemy
(Let's go, let's go, let's go, let's go)
Feel the low end rebound, ricochet
Off the walls, through your chest, feel it penetrate
As it runs right through every vertebrae
(Let's go, let's go, let's go, let's go)
So pick up the pace, no, you can't be clutching
On to the brakes, better keep it running
I'm on a wave, baby, are you coming?
Let's go, let's go, let's go, let's go

Get close
Don't know what you been told
It's all mirrors and smoke
We should lose control
Just leave
All that pressure, get free
I got all that you need
Can you get on my speed?
Push the tempo

Push the tempo, push the tempo
Push the tempo, push the tempo
