

Ray Of Sun

Sub Focus

Scratched the surface
You cut me deep and gave me a purpose
Can we come back when we're older?
Though maybe we might be a little colder

Leave a light on and don't be long
Let your love follow me like a ray of sun
We were too young and we only just begun
So come back love follow me like a ray of sun

Like a ray of sun
Like a ray of sun
Like a ray of sun
Like a ray of sun
Like a ray of sun
