# Ready To Fly

**Sub Focus**

There's a darkness deep in the ocean
But my head is high in the sky
The angels calling me over
But my feet won't take me that high
Drowning in my emotion
But I'm rising into the night
My spirit cannot be broken
Now my heart's ready to fly

Give, give me your wings
So we can go high up into the sky
So take me away
Night after night
I need you to get there, give me the light
And just like the birds
Take to the sky
I need it for a single moment tonight
Give me your wings
I need it to fly
So we can go high up into the sky

Give, give me your wings
So we can go high up into the sky
So take me away
Night after night
I need you to get there, give me the light
And just like the birds
Take to the sky
I need it for a single moment tonight
Give me your wings
I need it to fly
So we can go high up into the sky

Give, give me your wings
So we can go high up into the sky
So take me away
Night after night
I need you to get there, give me the light
And just like the birds
Take to the sky
I need it for a single moment tonight
Give me your wings
I need it to fly
So we can go high up into the sky

Give, give me your wings
So we can go high up into the sky
So take me away
Night after night
I need you to get there, give me the light
And just like the birds
Take to the sky
I need it for a single moment tonight
Give me your wings
I need it to fly
So we can go high up into the sky

Now my heart's ready to fly
