

## Mr. Darkside

Sub-Radio

Flying into a rage  
And I was doing just fine  
Saw a terrible thing  
Inside the Death Star  
It started out on my ship  
How did it end up like this

I just saw my kids kiss  
I just saw my kids kiss

Obi-Wan is a creep  
Gonna cut him in half  
Built an army of clones  
Then the clones attacked  
Now my saber is red  
And I'm missing my limbs  
And it's all in my head  
But I'm covered in...  
Sand now  
I chop off Luke's hand now  
Robot hand

And I just can't look  
It's killing me  
And taking control

Jedi me  
Turn younglings into debris  
Freezing guys in carbonite  
Force choke everyone in sight  
But it's just the price I pay  
Palpatine is calling me  
Kill off every last jedi  
'Cause I'm Mr. Darkside

I was smart for my age  
And I was doing just fine  
Built a protocol droid  
And made him kind of gay  
It started on Tatooine  
Watto was fat and mean  
Imma marry a queen  
But she's only 14

This guy painted his face  
Kenobi cut him in half  
Sold a million toys  
Cause double sabers are rad  
Second movie is bad  
Now I'm evil as shit  
Cut off Count Duku's head  
And I'm dressing in black now  
Have asthma attacks now  
I'm your dad  
And I just can't Luke  
No good in me  
It's taking control

Jedi me  
Chopped younglings like celery  
Pod racing on Tatooine  
Choking out my enemies  
But it's just the price I pay  
Lucasfilm is calling me  
CGI my brow-less eyes  
'Cause I'm Mr. Darkside
