

Clip thru U

Sub Urban

My apathy could consume me
I can't commit I'll just clip through everyone
You feel so good when you ruin me
I'll just submit if I ever lose your love

My apathy could consume me
I can't commit I'll just clip through everyone
You feel so good when you ruin me
I'll just submit if I ever lose your love

My apathy could consume me
I can't commit I'll just clip through everyone
You feel so good when you ruin me
I'll just submit if I ever lose your love

(If I ever lose your love)

Collarbones
Your bruises numbered like a domino
There's no antidote
To this sickness
So sick
I'm so sick
I'm so sick

My apathy could consume me
I can't commit I'll just clip through everyone
You feel so good when you ruin me
I'll just submit if I ever lose your love

(If I ever lose your love)

Collarbones
Your bruises numbered like a domino
There's no antidote (antidote)
We're bound to collide at this rate you know (know)

I clipped through you my darling
I clipped through you
I clipped through you

I clipped through you my darling
I clipped through you
I clipped through you

I could make you terrified
Couldn't love me if you tried
I don't have a thing to hide
If there's no one waiting for me
I can see my end in sight
Violence or suicide
I don't have a thing to hide
If there's no one waiting for me
