

# Can You Feel It

Sublime with Rome

Can you feel it  
Got my head in the clouds and I can't come down  
Can you feel it  
Got my head in the clouds and I won't come down  
Can you feel it  
Got my head in the clouds and I can't come down  
Can you feel it  
No I won't come down

I hold my breath  
Because I love the taste  
I stay happier  
With the best of words that's placed to waste  
And because nobody or nothing can help me from all my troubles  
And say for my only one I'd escape  
Traveling around the world  
Finding my place

Can you feel it  
Got my head in the clouds and I can't come down  
Can you feel it  
Got my head in the clouds and I won't come down  
Can you feel it  
Got my head in the clouds and I can't come down  
Can you feel it  
No I won't come down

[Wiz Khalifa:]  
Get high flying straight  
And I won't come down  
Get high flying straight  
Oh oh oh  
I'm rolling up a G6  
Hit it once you won't believe this  
You say your mind is racing  
Well I'm just trying to help you pace it  
See I be floating around space ships  
All up in there where the planes is  
Mixing my green with my breakfast  
Waking, baking  
I'ma roll my weed up everyday  
Smoke everyday  
Party everyday  
Try'na reach the clouds  
Are you on your way?  
I'm rolling up good you rolling up trash  
I'm burning them slow you burning them fast  
You smoking on this I'm smoking on that  
Ain't counting them grams just go in the bag  
You rolling a blunt I'm rolling a zag  
We grinding it up and mixing with hash and that's

Can you feel it  
Got my head in the clouds and I can't come down  
Can you feel it  
Got my head in the clouds and I won't come down  
Can you feel it

Got my head in the clouds and I can't come down  
Can you feel it  
No and I won't come down

And I push up weight  
Because I don't like the way  
Cut out a puncher  
And shoved it in my face  
Nobody or nothing cant help us out in construction  
Because we're coming out to lay the waste  
Traveling around the world  
Serving the taste

Can you feel it  
Got my head in the clouds and I can't come down  
Can you feel it  
Got my head in the clouds and I won't come down  
Can you feel it  
Got my head in the clouds and I can't come down  
Can you feel it  
No I won't come down
