

One Day At A Time

Sublime with Rome

No need to lie I've been such a mess
(I've been such a mess now)
5:45 there's disturbance in the residence
Hold up my life that's exactly what you went and did
(Hole in my life)
Spent so much time keeping up with all your drama, it just ruin me
(I need to move on)

One day at a time
You lie, you toy with me
I don't even mind
I kinda like how you ignore me
One day at a time
One day at a time
I can't even lie
I kinda like how you ignore me
One day at a time

[Eddie Zuko:]
Baby I know you don't see it
Need a 'rari just for you to go believ it now
Something that you could show your tia's
I know you're tired of whippin' inside of the Prius now
I know you hold me down
Lift me off the ground
And if you stick around I cannot lose
You know I'm getting close
Want this shit the most
Baby please don't go and make me choose

One day at a time
You lie, you toy with me
I don't even mind
I kinda like how you enjoy it
One day at a time
One day at a time
I can't even lie
I kinda like how you ignore me
One day at a time

Push me to the side, takin' up my mind
I'm close to the edge, call it override
Please don't make me choose, howling at the moon
To be honest I really don't know what to do

One day at a time
You lie, you toy with me
I don't even mind
I kinda like how you enjoy it
One day at a time
One day at a time
I can't even lie
I kinda like how you ignore me
One day at a time
